PROFILE

Motivated Computer Engineering student with experience in Flutter mobile application development, Firebase integration, and API-based applications. Flutter developer with experience building Firebase-integrated mobile applications and API-driven apps. Interested in mobile app engineering and scalable cross-platform development..

EDUCATION

Dharmsinh Desai University

B.Tech in Computer Engineering | 2025 – Present

Dr. S & S.S Ghandhy College of Engineering and Technology

Diploma in Computer Engineering | 2022 – 2025

TECHNICAL EXPERIENCE & SKILLS

Flutter Development

- Built 3+ cross-platform mobile applications using **Flutter and Dart** with responsive UI and optimized app performance.
- Integrated **Firebase Authentication and Firestore** for user login and cloud data storage.

Data Structures & Algorithms

- Solved **multiple coding problems on LeetCode** to strengthen problem-solving skills.

Game Development (Unity)

- Developed two games: Cube Runner and Flappy Bird (Naruto Edition).
- Implemented game physics, collision detection, and scoring system.

Web Development

- Built a responsive website using HTML, CSS, and JavaScript.
- Designed a mock **Car Company website with booking functionality**.

PROJECTS

Know About Surat | *Flutter, Dart, Firebase*

- Developed a mobile app providing information about food and tourist places in Surat.
- Implemented Firebase authentication for user login and registration.
- Designed the app to work offline with locally stored data.

AI Application | *Flutter, Dart, Firebase, API*

- Developed an AI chatbot application integrated with external APIs.
- Implemented real-time query responses using API calls.
- Added an AI image generation feature based on user prompts.

Workout Tracker App | *Flutter, Hive*

- Built a workout tracking application with calendar-based progress visualization.
- Implemented **Hive local database** for efficient offline data storage.
- Enabled users to log and monitor workout routines efficiently.

TECHNICAL SKILLS

Languages: Dart, C++, Python, Java, HTML, CSS.

Frameworks: Flutter, Firebase, REST APIs, Git, GitHub

Database: Hive, Firebase Firestore, SQL

Developer Tools: VS Code, Android Studio.

ACHIEVEMENTS & COMMUNITY

Google Developer Groups (GDG)

- Selected as a member of the **Mobile Development Team** in Google Developer Group.
- Collaborate with developers and participate in community learning events related to mobile technologies.
